1. Comprehensive Services Sites (CSS) are located in regular school buildings and serve special education students with a variety of special education eligibilities (e.g., emotional disabilities, autism, other health impairment, etc.).
2. Public Separate Day Schools (PDS) are stand-alone buildings which serve only special education students with a variety of special education eligibilities.
3. When a school program/classroom is at capacity, a new site will need to be located.
