

April 26, 2007

Dear Parent/Guardian:

Fairfax County Public Schools is pleased to announce weCare@school, a new program within the FCPS 24-7 Parent View on <http://fcps.blackboard.com>. weCare@school enables parents to securely access and update the emergency care information for their child(ren) via a web-based application—ensuring more accurate information.

Additionally weCare@school also enables first responders to emergency situations in schools (principals, assistant principals, nurses, police officers, etc.) to securely access emergency care information on students via wireless, handheld devices.

Parents with FCPS 24-7 accounts may access their child(ren)'s emergency care information by logging in and selecting the link under weCare@school. Your child(ren)'s most recent emergency care information currently exists within weCare@school. You are encouraged to log in and review your child(ren)'s information and make updates as needed.

A weCare@school quick reference guide is attached to this correspondence. If you need further assistance you may contact the FCPS 24-7 Help Desk at 1-866-434-8880. We hope you will take a few moments to utilize this additional opportunity to be involved in your child(ren)'s academic career in Fairfax County Public Schools.

Sincerely,

Robert C. Fuqua
Principal

P.S. If you do not have an FCPS 24-7 account and would like to have one, please refer to the Parent View Account letter sent home today (April 26, 2007) or the link off the main page of the Chesterbrook School website.
