

Express Scripts, Inc. Maintenance Medication List – Addition of Insulin & Diabetic Supplies

As of May 1, 2009, Express Scripts added insulin and some diabetic supplies to its maintenance medication list. This list represents prescription drugs that Fairfax County Public Schools’ medical benefits participants must obtain through Express Scripts’ Home Delivery service. Home Delivery saves you money on your prescription drug copayments. Basically, you receive a 3-month supply of your prescription drug with Home Delivery for what you would have spent for a 2-month supply from a retail pharmacy.

For more information about Home Delivery, see pp. 19-20 of the *FCPS Employee Benefits Handbook*.
