

SIGN-UP NOW FOR A FCPS 24/7 PARENTVIEW ACCOUNT!

Parents of Floris ES students can now sign-up for their own personal parent account, known as ParentView, through FCPS 24/7. An FCPS 24/7 ParentView account allows parents easy access to their child(ren)'s academic teacher's classroom accounts, as well as the ability to update vital emergency contact information online. After parents request an account, the account must be validated by Floris office staff before the account is activated. When you apply for an account, a "unique key" or verification code will be displayed and emailed to you. You must bring the code to the school's main office for validation and you will be required to present photo identification. Validation can occur in the Floris main office during regular business hours, Monday-Friday. We encourage all Floris families to sign-up for FCPS ParentView; for detailed directions on how to sign-up for an account. If you have problems or concerns with ParentView, please contact the ParentView Help Desk at 1-866-434-8880. If you've already signed-up and been validated by the school. Directions on how to use this service after validation.
