

It's time to register for:

Floris Scientists with The Science Place®

This 6 week science program is for all grades! The scientists in grades K through 3 will make glow-in-the-dark silly putty, mine for gems, make tornadoes, fly paper airplanes and helicopters, and learn about insects and ocean animals!

The Advanced Science Seminar is being offered for grades 4-6. They will be investigating scientific issues that are in the news right now! Investigate the process of erosion and test its effects on different sediment types, design a levee system that can withstand different magnitudes of floods, test the ways energy is transferred through different substrates and design a building to withstand a simulated earthquake. Students will design and conduct their own experiments and practice thinking independently. It's science in action! Everyone participates, and everyone learns!

Registration begins now!

Classes will meet on Wednesdays from 4:10-5:10 p.m. from October 12 through November 16, 2011. Classes will be divided by grades K-1, 2-3, and 4-6. Remember an adult must be present to pick up each student after class.

To register: Fill out the information below plus the attached waiver and place in an envelope with a check for \$80.00 payable to Floris PTA by **September 30, 2011**. Classes will be filled as registrations are received. **Parent volunteers are much appreciated!** Based on enrollment, free tuition may be available to parent volunteers. Please contact Susan Tseng at 703-709-0342 or hokies92@yahoo.com if you have any questions.

Floris Scientists Registration Fall 2011

Student name: _____ Grade _____

Teacher: _____
