

Reading is Fundamental (RIF) is a literacy program designed to give children access to a variety of interesting and exciting books in the hope of developing lifelong readers. Three times during the school year, Forest Edge conducts a book distribution for the whole school. Each class is invited to participate in an activity in anticipation of the distribution i.e. making a poster of their favorite authors, viewing book ads on our TV program and then come to one of our pods and choose a book for their own. We are grateful to the RIF organization and our PTA who sponsors this wonderful activity with their financial support.
