

Forest Edge Elementary School has a state of the art TV studio that produces the news each morning. TV studio crew participation is limited to 5th and 6th grade students; who must pass an on air audition to earn a position, as space is limited. Prospective students must have written approval from their teacher as well as from administration. Once accepted, they rotate through all the jobs that go into a TV production. To aide in this, they're assigned an adult mentor who guides them through the process. TV crews are encouraged to come up with there own ideas, identities, and themes to enhance their broadcasts. Special emphasis is placed on Character, and items related to learning, in that way they make it fun!!!
