

K¹²nectsII is a project designed to bring students, parents, and schools together, using technology to improve student achievement and home-school communication. Based in the Stuart pyramid, it will provide access to and integration of technology into every student's education.

- **Students will be learning to use more forms of technology at home, at school, and in the community.**
- **Parents will be able to communicate more effectively with teachers and school personnel through use of school and community technology resources.**
- **Teachers and school staff will learn and share effective strategies and assessment tools based on current research and technology.**

Participating Schools:

- **Stuart High School**
- **Glasgow Middle School**
- **Bailey's Elementary School
for the Arts and Sciences**
- **Beech Tree Elementary School**
- **Belvedere Elementary School**
- **Glen Forest Elementary School**
- **Parklawn Elementary School**
- **Sleepy Hollow Elementary School**
