

# Tech4Learning Parent Purchase Program

Parents are able to purchase Tech4Learning software packages at significant savings through the Tech4Learning Parent Purchase Program! This program makes it easy and affordable for students to continue their learning at home, using the same Tech4Learning tools available on computers at their schools.

“As an instructional technology coach, I enjoyed the value of Tech4learning products. As a parent who uses Pixie at home with my son and niece, I fell in love with the products on a whole new level.

My son Joey is a special child who struggles to communicate clearly. Pixie allows him to easily express himself. My niece is on a different level of learning and likes to find a creative ways to do her homework. I often have a fight over who gets to use Pixie first, and at night I have to beg Joey to go to sleep and save his project for the next day.”

—Danielle Abernethy  
Educator, Parent

## Frames™ 4

\$25<sup>00</sup>

### Stop-motion animation software

Your child can use Frames to create original animated cartoons, tell digital stories about your family, create clay animations, and work on classroom projects.

## WebBlender™ 2

\$25<sup>00</sup>

### Web page authoring software

Your child can use WebBlender to create a web site for your family, a photo gallery from a recent vacation, or a “choose your own adventure” story.

## Pixie® 2

\$25<sup>00</sup>

### Paint and creativity software

Your child can use Pixie to combine original art, clip art, text, and voice narration to create original stories, movies, comics, trading cards, and more.

## ImageBlender®

\$20<sup>45</sup>

### Image-editing software

Your child can use ImageBlender to optimize family photos, and design image rich posters, create personalized postcards and CD covers, and more.
