

HERNDON HIGH SCHOOL
Athletic/Activity Attendance Policy

Purpose

To stress to the student-athlete, parent, coaches and teachers, the importance of school attendance at Herndon High School.

Policy

All students/athletes must attend all scheduled classes on the day of a competition/activity/practice to be eligible to participate in extracurricular activities on that day. Students need to attend all class periods unless they have an approved excuse such as... doctor/dentist appointment, school related field trip, religious function...Checking in late because you were not feeling well or were overtired are not valid reasons and the student will not be allowed to participate that day. The individual teacher will deal with tardiness to class. Missing a class period or entire school day will not effect the student's participation the following day unless the coach/sponsor deems it to be necessary.

Field trips

Students are expected to attend school the day of their field trip and they are expected to return to school on time, the day following a field trip.

Tardy Hall Sweeps

If a student is involved in a Tardy Hall Sweep, they will serve the after school suspension given to them by their administrator, which may also involve missing practice the day of the detention. They will still be eligible to participate the day they are tardy.
