There will be additional clubs added during the school year like gymnastics, volleyball, track, and more. If you're interested in starting a club that isn't on this list please speak with Coach Thomas, the After-School Program Specialist.

Students who receive a grade below “C” level on either their interim or report card will be required to spend at least one late-bus day after-school working on Academics. In order to participate in the club(s) of your choice, students who have a grade below “C” level should get their planners signed by a teacher on the date they stayed after for academics.
