

Dear Students,

We're starving for sweets!! The vending machine in the teachers lounge is always out of good snacks. The cafeteria only has ice cream which melts by the time we get it to the teachers lunchroom. It takes so long to bake cookies and we are so tired by the time we get home from school each day. Do you think there is any way you can help us out? What we really want are some good home-baked cookies. We are even willing to pay for them. Do you know where we can buy some homemade cookies in the school? Let us know quickly.
