Materials:

One deck of Production Resources UNO cards
2 or more students

How to Play:

1. Shuffle the deck of cards well!
2. Pass out seven cards per person. Put the remaining cards in the middle of the group. The dealer flips over the first card, and play moves to the person sitting on the dealer's right.
3. Beginning with the first card, players place similar cards into the center pile. For example, if the first card drawn shows a Human Resource then each player, in turn, must place a card showing a Human Resource. If a player does not have a Human Resource card, he must draw one card from the deck and lose his turn.
4. "Skip," "Reverse," "Draw Four," and "Wild Card" may be played at any time. If a Skip card is played, the next player is skipped and therefore loses a turn. The Reverse card reverses the order of play. The Draw Four card requires the next player to draw four cards from the center deck to add to his hand. The Wild Card allows the player to change the production resource to one of his choice (Human, Capital or Natural resource). Once the player places a Wild Card down, he or she announces the change and plays a card from his deck (can go twice in a row whenever playing the Wild Card). Play continues with the new resource.
5. When a player has one card left, he announces "UNO!" The winner of the game is the first player to get rid of all of his cards.
