

Dear Staff Members,

As part of our unit on exploration, our students have officially become explorers. They have formed their own country. One of the countries is requesting your assistance. *See attached letter from students. You are being asked to sponsor their expeditions to discover new lands. In order to be a sponsor, they are asking if you can provide some needed supplies. In the baggie, you'll find everything that you need to give your group. If you choose to donate additional items, that is your prerogative. Please send a brief letter of acceptance to the country (place in teacher's mailbox by Tues., April 9th) and a representative will come by to gather the resources. Our explorers are chomping at the bit to go on their adventures. Rest assured that the riches that are discovered will be shared with the sponsor.

Thank you for your participation.

Sincerely,
