

Dear Students,

I know that all kindergarten and first grade students study some of our nation's most famous monuments. Many of you have probably even gone to visit some of them. However, I'll bet that there are students in your class that have never seen the Washington Monument. I've been thinking that it might be a great idea to have our own Kings Park Monument Museum. That way everyone in Kings Park School will be able to see the monuments and learn more about each one. We could even write a little description for each monument.

The monuments that we would like to showcase are:

- Statue of Liberty
- Mount Vernon
- White House
- United States Capitol
- Lincoln Memorial
- Jefferson Memorial
- Pentagon
- Washington Monument
- Kings Park School.

Do you think that you would be interested in helping to create monuments for the museum? You would need to ask Mrs. Bannon and your teachers if they would be willing to help. If you are interested please let me know. Your class can email me with your answer. Just ask your teacher for help.
