

Name _____

Data Retrieval Chart for Planets

		Earth	Planet X
Renewable Resources: Give an example of how we use each to produce energy (ie. windmill)	wind		
	sun		
	water		
Nonrenewable Resources Give an example of how we use each to produce energy (ie. windmill)	fossil fuels		
	nuclear energy		
Plant life/ animal life Give examples			

		Earth	Planet X
Weather conditions Place a check in the column if these types of weather conditions occur on each planet, and how often. (once a month, twice a year, etc.)	blizzard		
	thunderstorm		
	tornado		
	hurricane		
	flood		
Natural disaster Place a check in the column if these types of weather conditions occur on each planet, and how often. (once a month, twice a year, etc.)	earthquake		
	volcano		
	tsunami		
Protecting natural resources Give examples.	conserve recycle reduce
