

Name _____ Due:

“Our Changing Earth” Project

Now that we have studied planet Earth and planet X you will need to MAKE A DIORAMA of a HABITABLE ENVIRONMENT. A habitable environment is a place that is livable for plants and animals.

1. Your environment must include:

- Plant and Animal life
- Renewable resources (evidence of each):
 - WIND
 - RAIN
 - SUN
- Non-renewable resources (at least two):
 - COAL
 - FOSSIL FUEL (petroleum)
 - NATURAL GAS

2. Everything MUST BE LABELED.

3. You must also include a hand-written or typed paragraph describing your environment. (An adult may type your paragraph).
