

My Choices

Winter 1

If you had a chance to spend the day as a snowman, snowflake, snow shovel or snow ball, which would you choose? Write your reasons in your journal.

Look at a calendar and find the date for the first day of spring. Start on that date and count how many days until your birthday. How many days until Memorial Day? The first day of fall?

Compose some word chunk addition sentences in KidPix. Draw a picture to go along with them.

Write two acrostic poems using the words ICE and SNOW. Write and illustrate your poetry in your journal.

Find the file called *Magnetic* on the desktop of your computer. Predict things the might be magnetic. Locate pictures in the stamps. Test your predictions.

Design a place that you might want to hibernate in the winter. Use KidPix to draw that place.

Write a recipe for "Snowman Pie."

Use a Venn Diagram to compare an evergreen tree to a deciduous tree.

Using the file named *Bookmark*, create a winter bookmark for reading on those cold days.
