December 13, 2011

Dear Parents,

In an effort to ease traffic congestion at arrival and dismissal time, Kings Park is excited to announce that FCPS Transportation will assist our school with a **change** to the flow of bus traffic in the front driveway and make it one way going the opposite direction currently utilized. Beginning January 3, 2012, **school buses** will **enter the front driveway at Eaton Lane** and **exit on Harrow Way**. This change will involve changes to the ground markings and signs.

It is our hope that this new traffic pattern will ease traffic congestion. Please note that there will be NO change to the traffic pattern of Kiss and Ride. All Kiss and Ride procedures will remain the same. Our new traffic procedures are being implemented in January to ease traffic congestion and will help facilitate a swifter and safer dismissal for all students.

We thank you for your patience as we transition into this new procedure when we return from winter break. We will have extra staff from both Kings Park ES and FCPS available to assist during this transition. Please review the map below for a detailed bird's eye view of the changes and do not hesitate to contact myself or the front office with any questions.

Sincerely,

Dotty Lin
Principal
