February 1, 2012

Dear Kings Park Parents,

As you may be aware, Kings Park Elementary School will be acquiring additional instructional space and construction is slated to begin sometime in the coming month. While the construction will last for about a year, Kings Park Elementary will ultimately benefit from 7 additional classroom spaces along with several additional resource spaces.

Prior to the beginning of construction, one key alteration Kings Park must make is the relocation of some instructional and personnel space. One kindergarten classroom will be relocated to Room 11 in the front hall of the building and the students assigned to this class will remain the same. Along with some resource personnel, the Advanced Academic Program (AAP) will be relocated to a new space as well. Larger classroom spaces await them in a new Quad to be installed in the coming weeks.

At this time we have not been given a specific date for this move. We are awaiting the official word from Design and Construction and wanted to provide you with as much notice as possible. Representation from FCPS Design and Construction will be present at the next PTA meeting on February 6<sup>th</sup> to address any questions or concerns you may have. Additionally, posted in the front office is a drawing showing what the complete project will look like. Feel free to stop by and take a look.

We are excited that Kings Park will be getting new classrooms and much needed space upon the completion of this construction project. We greatly appreciate your understanding through this process.

Please feel free to e-mail me if you have any concerns or questions.

Sincerely,

Dotty Lin  
Principal  
Kings Park Elementary
