

10.30.07

Dear Jonathan,

*I am really happy to have you in my M2P class! You are really kind, helpful and always know what to do and how to do it.*

*I want to especially thank you for videotaping the M2P "American Idol at LJ" project for Rakeb and me. The fact that surprised me the most about you is that you taped the segments just the way we wanted them done - even when we didn't have time to tell you about it! As you know, we were busy trying to organize the contestants' singing order, and also get the script finished. Your ability to take over the taping without instruction gave me a sense of trust and faith in you. Your artistic creativity for capturing the shots from various angles, and the sense of realizing what was important to tape and what wasn't, really amazed me too.*

*I am always going to ask you to videotape for me as I know I can rely on you, and I also hope to learn taping skills from you if you'll teach me. You are great!! I cannot wait to finish the editing phase of "American Idol at LJ" so we can show others your wonderful skills.*

*THANK YOU A LOT!!*

*Your friend, Aakashna*
