Dear Evelin,

I appreciate you a lot. There are many reasons why. Mainly it is because you are a responsible young lady who does all her duties – as a person and as a student. During our broadcasts in the TV studio, for example, you are an effective and caring manager. You make sure everyone is working and that our show looks good.

You do many inspiring things that make you a person I look up to. I know I can always depend on you to get a job done, or keep a secret. You inspire me to reach to new creativity levels. Even when somebody is not here, you always go and try your best to get that person's job done – for the big picture.

With all the new and great ideas that you think of, you make me want to think harder too, to get to the level and potential you have. You have become a great role model and idol for me, not only as a friend or student, but as a person in society...a great person who will surely succeed in the future!

Thanks a lot, Abby
