

10.29.07

Dear Brooke,

You are a very fun, perky person. I just adore your individuality and positive attitude. We have a lot of classes together, so I get to experience your cool vibe a lot! You make my whole experience in Advanced Multimedia Productions better. In the morning for our "Good Morning Jackson Middle" broadcast, you just lighten up the whole TV studio, and you always seem to get those Factoids right!!

This year we have worked on several M2P projects, and they have been successful. But I want to give special recognition to your work on the "Football Fanatics" project. I had an incredible time co-hosting that awesome show with you. We really connected well with one another and the scripts (but that was a given because it was about the REDSKINS!).

I think that you are a great girl and very intelligent. You are very balanced and focused. Even if I would find you sitting in a corner reading, you would know how to have fun! So Brooke, thank you for being an awesome and inspiring classmate!

P.S. Because you are athletic, I know we can always talk about sports, too. Great!

Sincerely, Cydni
