

Dear Lizzy –

You have always been a best friend of mine and an inspiration to me. For the past two years of M2P together, I have learned to adapt to your crazy behaviors and have learned to love you. I appreciate all the hard work you have put into our projects, your true dedication to acting in our videos, and your absolutely ridiculous, but brilliant ideas. You always bring a unique flavor of “Lizzy” into our projects, especially *To Chew or NOT To Chew* and *The Biggest Loser*.

*The Biggest Loser* and *To Chew or NOT To Chew* were not only projects we worked on, but memories I’m never going to forget. Through the creative process of these videos, you were the one to really make me want to be involved. You allowed the whole group to have fun, laugh, and produce an entertaining videos. I admire your helpful ideas—like the time when you came up with a random song during class that day. That song you created, though, came to be the basis of our whole video. And the intricate dance moves that you created to go along with the song were even better.

Lizzy, you are ready to learn everyday in M2P. You do a professional job at editing and an even superior job at acting. I have definitely seen you blossom throughout the years, and that is why you are my inspiration.

Love, Kathy
