

10.29.07

Dear Chelsea,

I think that you did an awesome job these past few weeks on our "Stuffed Animals After School" M2P project. I admire how well you worked with Vickie and me. You always freely contributed your ideas, and if things didn't go your way, you didn't make a big deal.

I think you were really organized by keeping our papers where they belong, and putting together the slides and clips of our videos.

You were always on task and never got side-tracked. You kept Vickie and me in line when we would goof around or get off subject. I'm so glad we had you in our group because without you we would have never thought of the idea for our video!

It's been so much fun to tape and edit our video with you because you're always happy and ready to work. You make Multimedia class something to look forward to every day, and I've had so much fun this year already working with you. Your smart personality makes me able to count on you when I'm not sure of something, and your exciting personality makes me sure that you'll always have new, clever and creative ideas ready every class.

I just want to say thank you, and that I've had so much fun and learned a lot already this year just being with you.

Sincerely, Shelley
