

Dear Kathy –

It's not going to be that easy to express how much you've helped me out this year. Having you as a classmate has been amazingly fun! You've made such an impact on our group, the Blue Funyuns! You keep us organized with your ability to keep things neat and pristine. Whenever we miss a day of school, you have all the information for us. It's these little things that keep our little production company running smoothly.

You've taught me most of what I know about video editing. And you've mastered the arts of blurring, 2D and 3D effects. You keep us focused, and you are so fun to be around! You never cease to astound me with your capability to think outside the box.

All these things make you an M2P role model. But probably my most favorite thing about you is that you are always happy. Whenever I see you around school, you'll always say hi or wave.

Being in Multimedia class with you has been such an experience! Thanks again for being such an astounding classmate and friend!

Yours truly, Sofia
