

10.29.07

Dear Bridget,

There are many amazing things you do that I look up to. You're unique in your own special way. No one can compare. I think that your optimism and creativity will take you far in life. You bring joy to many people.

I am honored and grateful that I was able to work with you on our "Shanaynay" M2P project. This project was more work, and took a lot more effort, than I first imagined. We are almost finished now, and with your ideas, you have made "Shanaynay" one of a kind! I mean, most of the storyline came from you. As I visualize how the story goes, I can see that you are truly a creative person.

During the project there were times when our spirits were down. But you were there to motivate us, keeping us working. And then when we thought we were finished, we found out we weren't. We had to make some scene and videography changes in order to improve our project. Everyone was tired, and we were afraid that we couldn't do any more...but you were the one who told us that if we go back and work really hard on the project, put more creativity and determination into our efforts, our project **WOULD** be better. It **WOULD** be one of a kind. You motivated us to finish the job.

Bridget, I'm soooooooooo glad that you are here with us. You have given me an outrageously amazing experience. **THANK YOU!**

Love, Thuy
