and Ian Mills*

**Advanced Multimedia Productions
Luther Jackson Middle School**

Online video games

are very popular
and fun to play.

These games are fairly
simple, free, and enthralling.

Some of the games have
to be downloaded in a
separate application,
but some can be played
straight through
your internet browser.
They are all simple to install
and the instructions
are outlined on
their respective sites.

The online games
highlighted in this brochure
were developed by
independent gaming studios,
and we believe they are
of excellent quality.

These games are suitable
for players of all ages
because they do not contain
graphic violence
or mature themes.

Space Cowboy

**Play the role of a cowboy
and wreak havoc on other players
in your spaceship.**

**Join sides and fight massive
online battles.**
