**Runescape is a massive multiplayer online RPG game made by the game company Jagex. In the game, some of the skills are— cooking, mining, smithing, fishing, and crafting. In this tutorial, we will focus on mining and smithing game play.**

# Basics of Mining

Mining provides you with ores that you can sell to other players, or smelt into weapons.

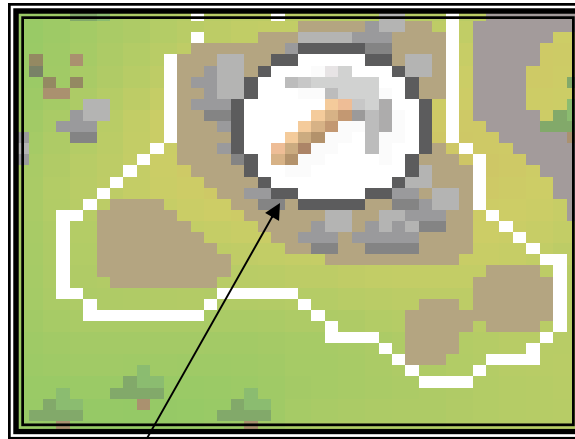

- ⇒ To start mining, you will need a pickaxe.
- ⇒ At level one, you will only be able to mine tin and copper.
- ⇒ Prospect a rock to find out what kind of ore it has.
- ⇒ As you progress you can buy more Powerful pickaxes
- ⇒ At level 60 you will enter the mining guild.

Here are some pickaxes

Steel Mithril Adamant Rune

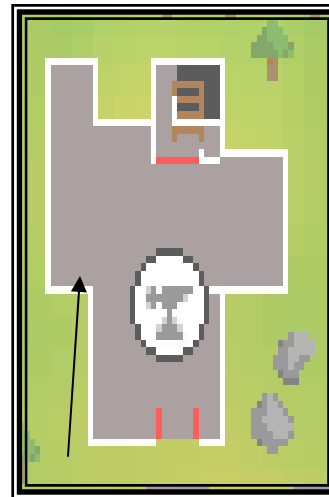

- ⇒ It will take a long time to mine high level ore with a low level pickaxe.
- ⇒ Try to get the strongest pickaxe your level will allow.

Mines are marked with a picture of a pickaxe.

Furnaces

Anvils

# Basics of Smithing

- ⇒ Smithing is useful to make weapons and armour, to use and sell.
- ⇒ To smith, you will need a hammer, furnace and anvil.
- ⇒ To make a bar, put ore you have mined into a furnace (Iron ore only has only a 50% percent chance of becoming a bar).
- ⇒ Sometimes it takes more than one ore to make a bar.
- ⇒ To make an object, use the bar with an anvil and select an object. It takes more than one bar to smith a object.

Here are some ores

Copper Tin Iron Coal
