

Dear Parent/Guardian:

Your child’s teachers use FCPS 24-7 Learning\*, an Internet-based learning system, to post homework, assignments and other communications with your child. Each student is given their own FCPS 24-7 Learning account.

Parents also have the opportunity to create an FCPS 24-7 Learning account of their own. The parent’s access into FCPS 24-7 Learning is called Parent View. The Parent View account gives parents the opportunity to view their children’s classroom activities. Parent accounts will also give parents access to other important features like weCare@schools. weCare@schools is the online system that allows parents to submit emergency care information for their children online.

The following is a brief summary of the features and benefits of FCPS 24-7 Learning Parent View:

FEATURES	BENEFITS
Single log-in	Parents will be able to access all their children’s courses using this single login. Parents need only register once and add all of their children to their account, even if their children are in different FCPS schools.
Exclusive parent user account	Parents no longer need to share their student’s login and ID.
Security	To keep information secure, the Parent View registration process has two separate checkpoints: Online Registration and an Onsite Verification process.
