

## SMART BOARDS NOW IN FOURTH, FIFTH, AND SIXTH GRADES AT STRATFORD LANDING

Have you been to Stratford's Spring Fling/Silent Auction in past years? Thanks to their success, Stratford's PTA has been able to purchase smart boards for the three upper-level grades. This initiative was begun three years ago: smart boards were purchased for 6<sup>th</sup> grade in 2007, 5<sup>th</sup> grade in 2008, and 4<sup>th</sup> grade in 2009. The PTA would like to continue this initiative by purchasing smart boards for the 3<sup>rd</sup> grade in 2010.

Funds for technology purchases come from money raised by the Silent Auction. We currently do not have any co-chairs for this event, which means we may not have a Silent Auction. If you would like Stratford's 3<sup>rd</sup> grade to have smart boards for the 2010-2011 school year, please consider stepping up to co-chair this event.

West Potomac High School's technology education program was named the 2009 High School Technology Education Program of the Year by the Virginia Technology Education Association. You can read more about this award at
