

Important Science Fair Information

The date of the Science Fair has been **changed** to
Thursday, April 26th, 2007.

All students who wish to enter the Science Fair should complete the
attached Science Fair Participation Form
and return it to their teacher by
Friday, March 2nd, 2007.

**If you have already turned in a form, you will not need to
complete another.**

The informational meeting for students is in the process of being
rescheduled due to the snow days. We will let students know of the
new date as soon as possible. At the meeting, we will display some
examples of investigations and experiments. We will also go over
the guidelines and have some helpful handouts for students to use in
their planning.

We look forward to seeing the 4th, 5th, and 6th grade students
participate in the 2006-2007 Union Mill Elementary Science Fair.
We also want to thank the parents for encouraging their children, and
for fostering their scientific curiosity and talents.

A special recognition from the Union Mill teachers will be factored
into each participating student's science effort grade.

If you have any questions, please attach a note to your
participation form or call Jenn McAdoo, Science Fair
coordinator, at 703-322-8500.
