## SCA Tries to Make World a Better Place!

### **The Community Service Committee**

The Alexandria Animal Shelter was thrilled to receive our donations. We ended up bringing over approximately 5 large boxes filled with toys, beds, blankets, towels and bowls. Thank you to all who participated! Our last service project for the year will be in support of the troops in May. Details will come closer to the date.

### **Earth Week**

The Citizenship Committee is proud to announce that the week of April 20—April 24 will be Earth Week at Waynewood. The reason for Earth Week is that in January, the most common wish for the world was for a cleaner and safer world. Many kids here are worried about global warming, polar bears, and pollution. Each day during the week will have a theme where we will learn more about the different things that hurt our environment.

**Monday:** During the morning news, you will see a video about the need for people to take better care of our world so that we have enough clean water, air, and land to live a healthy life.

**Tuesday:** We will learn more about how to keep our water clean and safe. Everyone should try to wear green and/or blue and only drink out of containers that can be used again (reusable water bottle). We will be selling stainless steel water bottles with Waynewood on them as a fundraiser for the SCA.

**Wednesday:** On Earth Day, we want to encourage everyone to walk, bike (if you are old enough and passed the bike rodeo), bus, or carpool with 3 or more people to school. The focus is on things kids can do to make our air cleaner.

**Thursday:** Unplug Day! Thursday's challenge is to try to "unplug" as much as you can. Make sure lights are out anytime they are not needed.

**Friday:** The focus is on Endangered Animals. Each class will be invited to research and post a poster about a species that is currently in danger of going extinct and what we can do to help. Classrooms will be invited to make a poster to be hung in the cafeteria.
