

West Potomac High School

Wolverine Time

What is Wolverine Time?

Wolverine Time (WT) is West Potomac High School's dedicated remediation, intervention and enrichment time.

When is it?

Wolverine Time occurs after third period. It lasts 30 minutes. When Wolverine Time concludes, students report to fourth period, fifth period, or lunch.

A Day	B Day
1 st period	2 nd period
3 rd period	3 rd period
Wolverine Time	Wolverine Time
5 th period (including lunch)	4 th period (including lunch)
7 th period	6 th period

How does it work?

Students' Wolverine Time is spent in one of three ways:

- At various points, students may receive a "Wolverine Time pass" from a teacher – and, students can ask a teacher to give them a Wolverine Time pass. When Wolverine Time begins, students who have a WT pass for that day will present it to their third-period teacher, then leave the classroom to report to the teacher who issued them the pass. While with that teacher, the student may work on remediation (e.g. rewrite a lab report or essay, make up missed work, review a course concept) or enrichment (e.g. a guest speaker or peer presentations). Students will stay with that teacher for the entirety of Wolverine Time that day.
- Under some circumstances, students will have their Wolverine Time scheduled by West Potomac's academic intervention team. This occurs when a student receives a "D" or "F" for interim or quarter grades, when a curriculum team refers the student for intervention, or when a student fails to appear for a scheduled Wolverine Time appointment twice in a row.
- If a student does not have a Wolverine Time pass on a particular day, that student will remain with his/her third-period teacher to work productively on e.g. homework, collaborative assignments, reading, etc.
