

**FAIRFAX COUNTY
PUBLIC SCHOOLS**

Dear Parents or Guardians,

You have been randomly selected from the families in our school to give us your opinions.

Enclosed is the **Parent Opinion Survey** that Fairfax County Public Schools (FCPS) administers as part of the principal evaluation process. This survey allows FCPS to include your opinions, level of satisfaction, and concerns in the evaluation process. It also provides me with the community feedback that is essential for our success as a school.

We are always striving to provide your child with the best education possible. Your input is needed to meet that goal. The Parent Opinion Survey asks your opinions about important issues such as school safety, parent involvement, instruction, communications, and expectations for student achievement and behavior. **Please take a few minutes to complete and return the Parent Opinion Survey in the enclosed postage-paid envelope. Be sure to mark your answers on the English survey form.** This is the only way your responses can be scanned and included in the survey.

The Parent Opinion Survey is completely anonymous. The return envelope is addressed to the Fairfax County Public Schools' Office of Student Testing, which will process the forms and report results to our school.

Thank you for sharing your views. I appreciate the opportunity to improve our school and services.

Sincerely,

Your Principal
