Cluster Offices

Description

Each Cluster Office provides operational and instructional leadership as well as support to the schools in its cluster, and provides liaison services to schools and communities. Each cluster office has one director, one coordinator, and one administrative assistant. School-based funding for unanticipated school requirements is budgeted within the cluster offices. These School Materials Reserves are formula driven based on the per-pupil rates budgeted in textbooks and supplies for the schools, centers, and ESOL transition centers in each cluster.

Goals

- Improve the academic performance of each student and strengthen the academic program in all schools
- Improve the achievement of diverse learners and remove disparities in achievement among students

Explanation of Costs

The FY 2005 budget provides \$4.0 million including salaries and benefits for the 24.0 positions at the Cluster Offices. Each office is staffed with 3.0 positions: director, coordinator, and administrative assistant. Funding for supplies, equipment, reference materials, and school-based funding for unanticipated school needs is included for each office. Total School Approach (TSA) Initiative funds are developed using a per-pupil formula and are detailed in the Combined School Based Program Section of the Program Budget.
