

# SAFEGUARDING FCPS PROPERTY

## Safety & Security Fact Sheet

Proper equipment identification is the first line of defense in protecting school property. Not only does marking property aid in recovery of stolen property, marking property also deters theft. Every location can provide extra security measures by:

- ✓ Using the “Super Sharpie” non-toxic marker.
- ✓ Marking all equipment on the front, top, and sides—the bolder the better!
- ✓ Including the school name, the location code, and the Fairfax County Public Schools (FCPS) logo.

Each school location and administrative center received a set of black and red markers from the Office of Safety and Security (OSS). Purchase additional markers in black (#224-378) and red (#224-774) from Office Depot.

Training sessions titled Building Security, The Security and Fire Alarm System, Providing a Building Security Assessment, and Addressing Specific Security Concerns may be conducted for your facility by OSS.

If you need assistance, call the security section at 571-423-2000.
