

Minutes from the FCPS Employee Impact Committee (EIC)
Monday, November 20, 2007

After a short discussion about the name "Teachers Impact Committee" the group decided to change the name to accurately represent the educational and support personnel that could be affected by changes with the delivery of transportation services. The new name is the FCPS Employee Impact Committee (EIC)

The group suggested we may want to consider the following questions:

- What is the impact of these changes on FCPS employees?
- Should we look at balances – ride times-bell times?
- Should we look at establishing "new baselines" For example, who gets services?
- Is it cost effective?
- Should we be prepared to make compromises?
- What is important?
- What are our priorities?

The meeting ended with a discussion to investigate what employees and/or groups might be included.

New meeting date for the FCPS Employee Impact Committee (EIC):
