Accreditation ratings are based on the achievement of students on tests taken during the previous academic year and may also reflect a three-year average of achievement. Adjustments also may be made for students with limited English proficiency and for students who have recently transferred into a Virginia public school. Accreditation ratings also reflect the success of a school in preparing students for retakes of Standards of Learning (SOL) tests.

* All History and Science tests other than grade 3.

** Both sites accredited with warning are warned in science.

NA = Not Appropriate or Not Assessed in 2004-05.
