

KIT Phone Message for Friday, August 22, 2008

Hello. This is Jack Dale, superintendent of Fairfax County Public Schools. I'm calling to let you know that, for a brief time this summer, information about one of your students in your household was mistakenly posted on a public web site by the testing company Princeton Review. This information ONLY included your child's first and last name, school student identification number, and birth date. It did NOT include your child's social security number. We do not believe that this incident poses any threat to your student and do not believe you need to take any action. Princeton Review removed your student's information as soon as it was discovered and has apologized for their mistake. If you would like more information, please contact Princeton Review at 800-955-4600. Thank you and have a great school year! Good bye.

Goodbye.
