

Sharing with My Friends

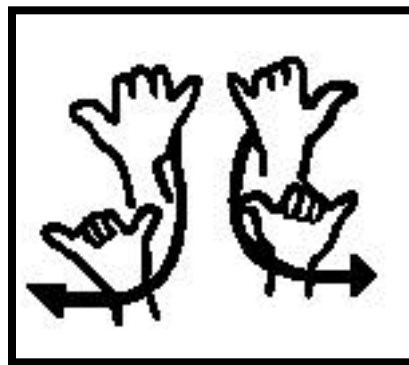

share

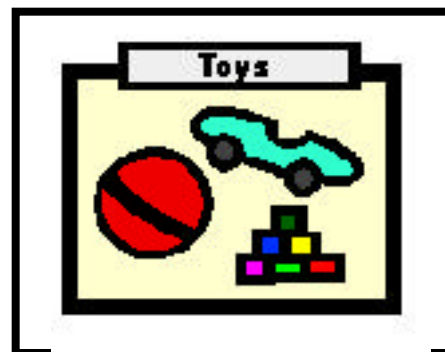

I have lots of friends at school.

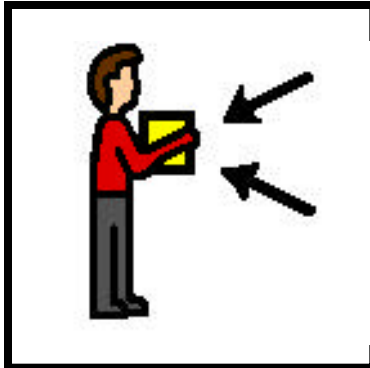

I like to play with my friends.

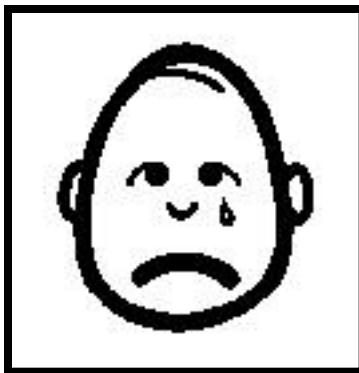

Sometimes my friends may have a book or toy I want to see.

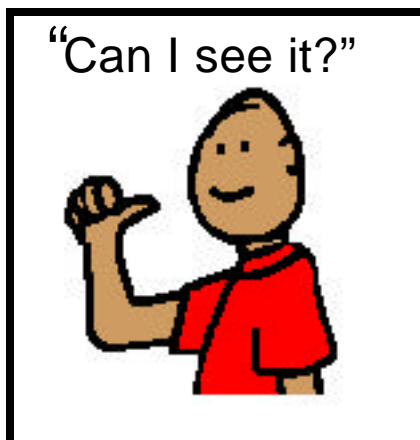

Sometimes I take the toy or book and want to to keep it .

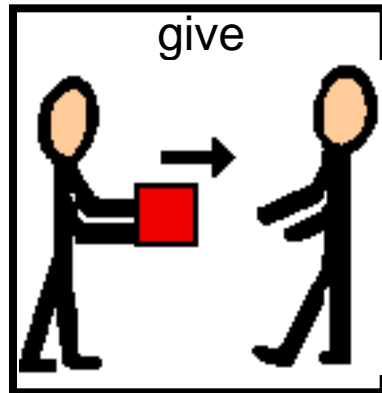

When this happens it makes my friends feel sad.

If I want to see a toy or book I can say

I need to give the toy or book back to my friends after I am done looking at it.

This will make my friends happy.

This will make me happy.
