

Schools Closed for Student Transfers, 2009-2010

The following schools currently are at enrollment capacity for the 2009-2010 school year and are unlikely to enroll out-of-attendance boundary students. Other schools may be at enrollment capacity at specific grade levels. It is possible the schools may remain on the over-enrolled schools list for the 2010-2011 school year.

FCPS will release the list of schools at enrollment capacity for the next school year by May 2010.
