60	I am somewhat aware of the challenges.	FCPS email	FCPS email	Yes - September 11, 2023	Poe MS;Holmes MS	Current situation untenable. Glasgow over capacity and projected to become more so. It is an absurd number of students for a middle school (esp when FCPS guidelines target max of 1300 students at MS). Poe seems an obvious choice with most excess capacity.	Need to consider which schools are Title I or likely to become so when planning. Jackson MS doesn't make sense because it's grades 7-8, and the others are 6-8. Glasgow has an AAP program while Poe and Holmes do not. In order to make a dent in numbers at Glasgow, a number of neighborhoods would need to shift (250+ students). Change would split HS pyramid.	What ever happened to considering whether Glasgow, Poe and Holmes should be grades 7-8 like the others in the county? Was that idea scrapped? I don't think it should necessarily change, but presenting where this discussion landed would be relevant.	Parent or Caregiver

When the boundaries were changed years ago, it created a divide. Lower vs higher income. Most families want to go to the AAP center schools so they don't go to the lower income schools. AAP kids should be at EVERY school. No more centers.	Parent or Caregiver
116	I am very informed about the challenges.	FCPS email	In-person events	Yes - August 29, 2023	None of the schools listed				Parent or Caregiver

130	I am very informed about the challenges.	From having children who have gone there and from talking with parents and staff.	Email from principal	No	Poe MS; Holmes MS; Jackson MS	Simply, our schools should not be this large. It's not fair to the kids or the teachers/staff. We need one more middle school, but if that isn't immediately possible, all schools listed should be used to reduce crowding and over-stressing resources.	I'm sure some will be frustrated with new routines and different distances. But change can be a great thing, especially if it helps alleviate current issues while incorporating the needs of students, parents, and staff.	Making adjustments to school size is essential. We need to create school communities that provide less stress to those who comprise those communities. Small school capacities are one step in doing this.	Parent or Caregiver
