

RESULTS LETTER - BELOW 91ST PERCENTILE
IOWA ALGEBRA APTITUDE TEST (IAAT)

Dear Parent(s)/Guardian(s) of _____:

Earlier this year your child took the Iowa Algebra Aptitude Test (IAAT). This was the first step in the screening process for placement in Algebra 1 Honors in the following academic year. A student must score at or above the 91st percentile to continue in the screening process. I am writing to inform you that your child scored at the _____ percentile on this test.

Your child will continue in their advanced mathematics coursework this year and take the Virginia Standards of Learning (SOL) Grade 7 Mathematics test in the spring. This will serve as excellent preparation for Mathematics 7 Honors in grade 7 and Algebra 1 Honors in grade 8.
