INTRODUCTION

The Report of Student Membership by Ethnicity, Race and Gender is based on student membership data as of September 30, 2015. Student ethnicity and race data are collected from the parents/guardians at the time of initial Fairfax County Public School (FCPS) registration. No student is counted in more than one ethnic or racial category. Membership is reported by elementary, middle and high schools; special education centers; and alternative education schools and centers.

FCPS uses the ethnic and racial classifications established by the United States Department of Education pursuant to Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, section 504 of the Rehabilitation Act of 1973, and the Final Guidance in the Federal Register of 2007 (72 Fed. Reg. 59267). The following highlights the history of ethnicity, race and gender reporting requirements:

- The original ethnic and racial categories were American Indian or Alaskan Native, Asian or Pacific Islander, Hispanic, Black, and White. A local code titled "Undesignated" was used when the parent/guardian of a student refused to identify the student with one of the five federal classifications. Beginning with the 1994-95 school year, FCPS added "Multiracial" to the list of ethnic and racial classifications. The term Multiracial was defined as "persons whose parents have origins in two or more racial or ethnic groups."
- Beginning with the 2003-04 school year, the Virginia Department of Education and FCPS added "Hawaiian/Pacific Islander" to the list of ethnic and racial classifications.
- Beginning with the 2010-11 school year, school divisions and states are required to follow new federal standards for collecting and reporting ethnicity and race data. In 2009-10, FCPS transitioned to the new categories by asking families of all students to update the reporting of their children's ethnicity and race. The first question asked whether or not the respondent is Hispanic or Latino (ethnicity). The second part asked the respondent to select one or more races from the following five racial groups: American Indian or Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander, and White. The result is seven federal categories: Hispanic or Latino (of any race), American Indian or Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander, White, and Two or More Races. The term "Multiracial" has been replaced by "Two or More Races" and the term "Hispanic" has been changed to "Hispanic or Latino." "Asian or Pacific Islander" has been separated into two new categories - "Asian" and "Native Hawaiian or Other Pacific Islander." The "Undesignated" category is no longer used because ethnicity and race data are required for all students.

As of September 30, 2015, Fairfax County Public School student membership was 185,490. Table I displays the number and percentage of students in each ethnic, racial and gender category and level.
