2017-2018 School Board Charge:

The committee should examine practices throughout the school division related to providing services at the building level for students with disabilities in grades preK-12 for the purposes of maximizing inclusion in educating students with disabilities in their base school.

- *Examine how students with disabilities are making progress in the general education curriculum (IDEA, 2004). Explore "progress" as supported by, at a minimum, student growth progression, cohort progression, national data and parental goals.*
- *Examine current FCPS staffing practices and facility adequacy and limitations to evaluate efficacy in delivering services at the building level while meeting the needs of a diverse population of students with disabilities in grades pre-K-12 with current composition of FCPS facilities.*
