Mission Statement: To provide advice to the school administration and the School Board on career and technical education programs and initiatives for the purpose of improving the effectiveness of these programs and associated courses in providing students with the knowledge and skills that contribute to their preparation for the workforce, military, and/or continuing education in a competitive global economy, and to help the schools obtain support and participation from the business community and the public.

Committee Charge: In collaboration with key stakeholders, ensure equitable awareness, access, and participation in all CTE programs. Ensure greater awareness of career-readiness options provided by CTE programs with a new emphasis on exposure to working in a virtual or hybrid workplace, workforce trends, and growing leadership skills.

Issues related to Career and Technical Education should be submitted in writing to the executive council for consideration as future agenda items.
