A note on transcriptions:

A line-by-line transcription has been prepared to preserve the integrity and style of the original writing. Modern usage of punctuation and capitalization have been utilized for the sake of readability. “Centreville School Board” appears in various forms of capitalization; for consistency this transcription has capitalized “Centreville School Board” and “School Board” throughout. Names of schools, likewise, were written without any uniformity and appear in this transcription in capitals for full school names (i.e.: School No. 3, Crouch School or Crouch Schoolhouse), with the spellings of “schoolhouse” being adopted throughout and not broken into two words. Shorthand versions of “and” in the form of plus signs instead of ampersands have been preserved and various notations of currency have been unaltered. Many names appear in abbreviated form, as was the fashion at the turn of the century, and have been transcribed as they appear with only the addition of necessary punctuation for consistency; names written in full have been researched for correct spelling and are used in this text to create as accurate an account as possible. Any indecipherable text has been notated with square brackets as to not unintentionally misspell or misrepresent a word or name.
