Next Meeting: February 28, 2017, 8:30 a.m., Willow Oaks, Room 3000

If schools are closed or there is a delayed opening, the CTEAC meeting will be canceled.

Mission Statement: To provide advice to the school administration and the School Board on career and technical education programs and initiatives for the purpose of improving the effectiveness of these programs and associated courses in providing students with the knowledge and skills that contribute to their preparation for the workforce, military, and/or continuing education in a competitive global economy, and to help the schools obtain support and participation from the business community and the public.

Committee Charge: Examine data relevant to the STEM, Health and Medical Sciences and Information Technology Career Clusters (current courses and enrollments, workforce development needs, industry credentials, and student career interest surveys) and make recommendations for changes to the Career and Technical curriculum, course offerings, and student’s work-based learning experiences that would enhance alignment with Northern Virginia’s current and future economy.

Issues related to Career and Technical Education should be submitted in writing to the executive council for consideration as future agenda items.
