

## Career and Technical Education Highlights for November 2021

### **Career Experiences:**

#### ***Edison Academy:***

##### **Visit to International Spy Museum**

On October 25 and 28, almost 80 Criminal Justice students visited the International Spy Museum where they learned about the role spy craft plays in protecting citizens. With almost 20 digital and physical interactives interspersed throughout the permanent historical exhibition's students tested their memory, observation, deductive reasoning, code cracking, strategic planning, and surveillance skills. Students also viewed film archives, spy interviews, spy craft tools of the trade and artifacts from historic spy missions from around the globe.

##### **Culinary Institute of America Visit**

On October 22, culinary arts students were treated to a demonstration by Chef Keith Simpkins from one of the world's premier culinary schools, the Culinary Institute of America. The Culinary Institute boasts such alumni as Anthony Bourdain, Michael Mina, Duff Goldman Marcy Blum, and a host of others. Students also had a question-and-answer session where they gained important information about the school's programs of study, tuition, admission process, and career placement services.

##### **Electrical Construction and Engineering Teacher Receives FCPS Excellence Award**

On October 13, Joe Wolfe, Edison Academy's Electrical teacher, was recognized at the FCPS Excellence Awards ceremony in the category of Impact on Others. "Joe is quick to share opportunities and to collaborate with others. He takes the lead in offering cross and co-curricular activities with other teachers. He involves his students in community service projects for non-profit organizations and works with local business and industry leaders to place students in paid summer internships and youth apprenticeships while in high school and after graduation. "Thank you, Joe, for your professionalism, dedication, and all that you do for our Edison Academy teachers and students."

#### ***Fairfax Academy:***

Fairfax Academy will host a Career Connections Expo with professionals from numerous industries including TV Production, Theatre, Dance, Musical Composition, Photography, Language, Social Media and more! Students will spend the day hearing from professionals from all over the country!

***Falls Church Academy:***

**Aspiring Medical Workers Get Hands-On Practice Performing Vision and Hearing Tests across FCPS**

Each academic year, students new to Fairfax County Public Schools and FCPS students in grades K, 3-7 and 10 are required to receive a vision and hearing screening to determine their level of medical need. Students who have difficulty seeing and hearing are at greater risk of not meeting their academic potential. This early detection will help the school, parents and students understand the support needed for each student to access their education equally. COVID disrupted this effort for detection, therefore the number of students needing screening is larger this year than in the past.

With thousands of students to be screened, parent volunteers are often called upon to help but this year Falls Church Academy Medical Assistant students were brought in to assist Fairfax County Health Department representatives with the screening. The Medical Assistant students assisting is mutually beneficial because students get real experience, and the schools get much needed assistance for the screenings. At some schools over 700 students are screened. Julie Smith, Fairfax County Health Department Public Health Nurse said, “that would be impossible without the assistance of the Falls Church Academy students. They are professional, courteous and well trained. We so appreciate their help and couldn’t do it without them.”

Students in the Medical Assistant course are interested in moving toward various medical careers in the future and were excited for the opportunity to learn patient communication and record keeping skills as well as how to use the different medical equipment needed in the screening.
